

Arvia® Gives Guest Presentation to Enpure

-Showing others how we can 'change the way we treat water'

Environmental process engineering company, Enpure recently invited Arvia® Technology to give a presentation at its 2009 Water Chemistry Day about innovative ways of treating and recycling water.

Enpure offers a complete range of solutions from design to construction for to the environmental and industrial sectors, boasting a range of clients in the water, waste and industrial field.

Arvia®, who gave the presentation at Enpure's head offices in Birmingham, was asked to highlight the unique nature of its water treatment technology.

Arvia®'s principal inventor and founder, Nigel Brown was on hand to deliver the presentation.

Nigel Brown said: "I was delighted that Enpure recognised the value of our technology and invited us to give the presentation. We hope to work with them again in the future."
